Brochure for the purpose of selling fire safety products

Cylinder Storage & Handling of O₂ Cylinders

A new cylinder Holder/Carrier providing Safe and Secure Storage and Handling for all your high pressure cylinders.

The concept behind the SafeT System Holder/Carrier is simple. The T handle of the holder/center locks the cylinders into the device plus locks the device into the Truck Compartment, Station Storage Rack or Mobile Cart providing Safe and Secure Fixed Storage. A quarter turn in either direction of the T Handle allows an individual cylinder to be removed or the complete 2 cylinder Holder/Carrier to be removed from compartment or rack for manually transporting cylinders to and from staging areas and/or refill sites. This alleviates the extremely unsafe practice of handling high pressure cylinders by the valve handle or valve assembly.

Safe Secure Storage as well as providing Safe Efficient Manual Handling Capability.

Apparatus / Air Support Storage

Multiple cylinder storage & transporting on all types of Air Support Vehicles: Rescue, Pump, Pumper, Ladder or Conventional Vehicles and USAR.

- Apparatus
- For
- Efficient
- Transport

"To improve firefighter efficiency and safety, providing secure and safe storage to support firefighter with a positive attitude, SafeT System is the only choice." - James D. Johnson, Fire Chief, Western Fire.

Available in three different sizes to suit your department cylinder requirements. Can be secured vertically or horizontally. The SafeT System Holder/Carrier can be ordered with your next OEM purchase or Quickly & Easily retrofitted on your existing fleet.

YogaEd

Week Long
40 hours
Instructor Training:
K-8 Curriculum and
Tools for Teachers*

The Yoga Program for Schools

The Yoga Ed. Instructor Training provides you with the structure, skills, resources, and confidence to engage the whole child, adapt yoga lessons to different age levels, and teach life skills through yoga. In the Yoga Ed. Tools for Teachers Training you will learn to speak and share yoga in a universal educator-friendly way. You will be able to lead professional development/in-service trainings at schools nationwide and empower teachers to use yoga as an effective tool for behavior and class management as well as improved health, harmony, and learning.

Summer Schedule:
June 18th-June 24th
August 24th-August 31st

\$1993.00 includes tuition, materials, fees, accommodations and all meals.

To Register contact Julie Soricchetti 705-741-4504
jsoricchetti@cogeco.ca

This program certifies you to teach:

YogaEd K-8 Program in schools as PE:

- Teaches fitness, health and life skills through yoga • Meets national PE Standards/Challenges
- Cost-Effective way to lay the foundation for a lifetime of health and wellness
- Teaches children through experiential play, catering to Multiple Intelligences

YogaEd Tools for Teachers to Classroom Teachers:

- Simple yoga techniques designed for the classroom • Train teachers to become "yoga educated" so they may incorporate yoga-based activities daily schedule to reduce stress and enhance focus, self-discipline, learning, and health
- Requires no experience, extra space, or equipment
- Provide teachers with five to fifteen minute activities, so teachers and students can feel better and improve creativity, behavior, and achievement

Curriculum Materials Included:

- YogaEd 36 Week curriculum/Teacher's Guide and Resources
- YogaEd Tools for Teachers Training Handbook and Manual • YogaEd CD of music for classed

*Pre-Requirement: Yoga Teacher Training or equivalent
